Subject Index

A

$^{40}Ar/^{39}Ar$ age 509
^{40}Ar–^{39}Ar dating 265, 609
Adelaide
  Fold Belt 11
  Orogenic Belt 141
alkali basalt, Mt Wright Volcanics 331
alkaline complex, Damaraland 157
allochthoneity, Precambrian basement (Reply to Discussion, Discussion) 171
alluvial fan-delta 27
alstonite, Hunter Valley (Geological Note) 617
Amadeus Basin, correlation with Savory Basin 533
amino acid racemization 19
aragonite 497
Archaean granitoids 131
Archaean volcanism, west Pilbara (Geological Note) 175
aspartic acid 19

B

backscatter electron microscopy 255
Badger Head region, fault history (Reply to Discussion, Discussion) 169
basin formation 341
biostratigraphy 455
blueschist, New England Orogen 115
Boco Plain, Pleistocene stratigraphy 581
boudinage control 105
boudinage (Geological Note) 387
Bremer Basin, evolution 55
brittle-ductile deformation 429
Broken Hill Block, correlation with Wonominta Block 605
Broken Hill boudinage (Geological Note) 387
Bryozoa, Holocene sediments 353
Buchan Group, Pb–Zn sulphide minerals 75
Bushveld-type magma mixing (Geological Note) 281

C

calc-silicate lenses (Geological Note) 383
Campwyn Volcanics 287
carbon nodules 131
carbonate
  minerals, Hunter Valley (Geological Note) 617
  sediments 55
carbonatites, anorogenic alkaline complexes 157
Carboniferous, volcanic fore-arc succession 287
clastic sediments 55
Cloncurry district, hematization (Geological Note) 381
Cobar Basin 341, 509
continental saline seep 497
continental shelf
  Sedimentary deposits 241
  carbonate sediments 241
cool-water carbonates 353
copper, exploration strategy 1
coral reef diagenesis 463
coralline algae 353
core complex 115
Cowan palaeodrainage channel 55
Cretaceous Bathurst Island Formation 407
Crown Hill Andesite, argon geochronology 265
cyclical erosion 407

D

Dampier Ridge 395
Darwin Member 407
dating, amino acid racemization 19
dawsonite, Hunter Valley (Geological Note) 617
deep weathering 407
deformation
  mid-Proterozoic rocks, east Antarctica 311
  partitioning 91
Delamerian Orogeny 141
depositional environment 27, 191
Devonian
  lamprophyre dyke suites 47
  Pb–Zn sulphide occurrences 75
  volcanic fore-arc succession 287
diagenesis 463
Duaringa Basin, sideritic ironstone bands 255

E

Early Cambrian alluvial fan-deltas 27
Early Proterozoic, Tennant Creek Block 609
earthquakes 483
  Richter magnitude 221
  site correction 221
electrical conductivity model 475
Else Platform, east Antarctica 311
evolution
  Darwin landscape 407
  Lefroy and Cowan palaeodrainage channels 55
exhumation 115
Exmouth Plateau 455
exploration strategy 1

F

fatty acids, radiocarbon dating (Geological Note) 179
fault history, Badger Head region (Reply to Discussion, Discussion) 169
fault systems, Gazelle Peninsula 561
faulting, Mt Isa 429
fission-track thermochronology 11
Fitzroy River, palaeoflood record 273
Fleurieu Peninsula, sequence boundary 445
fluid inclusions 131
foraminifera, Miocene 593
fore-arc succession, Campwyn Volcanics 287
formation brines 131

G

Gazelle Peninsula, fault systems 561
geochemistry
  Dampier Ridge 395
  Mt Wright Volcanics 331
geochronology 11, 47, 265, 395
geomagnetism 475
geomorphology
  Kambalda region 229
  Lake Lefroy 417
Georgina Basin
  alluvial fan-deltas 27
  petroleum reservoir 27
geotherms 205
Gippsland Basin, palaeo-oceanography and palaeobathymetry 525
glaciation, Boco Plain 581
Glenelg River Complex, geological affinities 141
gold
  exploration strategy 1
  mineralization, Tennant Creek 609
  transport 181
Grampians Group, and Rocklands Rhyolite (Geological Note) 621
granite emplacement, Hodgkinson Province 91
groundwater recharge 505
gypsum 497

H

halite 497
Hastings Terrane, palaeomagnetism and tectonic rotation 547
hematization (Geographical Note) 381
Hilton deposit 429
Hodgkinson Province, granite emplacement 91
Holocene sediments, Spencer Gulf 353
Holocene floods, sedimentary record 273
Hunter Valley, carbonate minerals (Geological Note) 617
Huon Peninsula, tectonic uplift 463
hyaloclastite 287
hydrology changes, Lake Frome 37
hydrology, Lake Lefroy 417
hydrothermal
  alteration, granitoids 131
  systems 11

I

igneous intrusion 91
inversion, Cobar Basin 341
isotope stratigraphy 455
isotopic dating 395

K

Kalgoorlie goldfield 105
Kambalda
  geomorphology 229
  mineral exploration 1
Kanmantoo Group 141, 445
kimberlites, anorogenic alkaline complexes 157
Kingfish 8 well, Gippsland Basin 525

L

Lachlan Fold Belt (Geological Note) 383
Lachlan Orogenic Belt 141
lacustrine oil shale 255
Lake Frome, Sr-isotope record 37
Lake Lefroy 417
lamprophyre 365
  dyke suites 47
  landform, rehabilitated 505
Late Quaternary, coral reef diagenesis 463
laterite
  gold in 181
  Kambalda region 229
lead–zinc–silver 429
Lefroy palaeodrainage channel 55
lithofacies 191
lithostratigraphy, Nowra Sandstone 191
lode configuration and distribution, Kalgoorlie goldfield 105
Lowmead Basin, sideritic ironstone bands 255

M

magmatism 395
magnesian calcite 497
Margaret River, palaeoflood record 273
Mediva Fault, structure 561
metamorphism
  Lachlan Fold Belt (Geological Note) 383
  New England FMt Mee, structural development 115
Mt Painter Inlier 11old Belt 571
metapelite, east Antarctica 311
mid-Proterozoic correlation, east Antarctica 311
mineral exploration 1
mineralization, anorogenic alkaline complexes 157
mineralization
  Broken Hill (Geological Note) 387
  Hilton Mine area, Mt Isa 429
  syndeformational 509
  sulphide, west Pilbara (Geological Note) 175
Miocene
  deep-sea ostracods 525
  upwelling events 593
model ages
  Broken Hill Block 605
  Wonominta Block 605
molluscs, Holocene sediments 353
Monaro basalt (Reply to Discussion, Discussion) 69
Mt Isa 429
Mt Mee, structural development 115
Mt Painter Inlier 11
Mt Read Volcanics, argon geochronology 265
Mt Wright Volcanics, geochemistry 331

N

Namibia, anorogenic alkaline complexes 157
Nd isotopes
  Broken Hill Block 605
  Wonominta Block 605
New Britain arc, evolution 561
New England Batholith 365
New England Fold Belt
  arc flank and fore-arc basin sequence 301

facies 287
ophiolitic and metamorphic rocks 571
New England Orogen 115
nickel, exploration strategy 1
Normanville Group 445
Norseman, mineral exploration 1
North D'Aguilar Block 115
northern Australia, gold mineralization 609
Northern Territory, landscape evolution 407
Nowra Sandstone 191

O

Officer Basin, correlation with Savory Basin 533
Olympic Dam, mineral exploration 1
ophiolite, New England Fold Belt 571
ore
genesis, Buchan Group 75
location 105
ostracods, deep-sea 525
oxygen isotopes 455
oxygen-saturated fluids 181

P

palaeobathymetry, Gippsland Basin 525
palaeoclimate 37
palaeodrainage
channels 55
Kambalda region 229
playa 417
palaeofloods 273
palaeogeography, Nowra Sandstone 191
palaeohydrology 37
palaeomagnetism, Hastings Terrane 547
palaeo-oceanography, Gippsland Basin 525
Palaeozoic intrusive rocks 365
Papua New Guinea, tectonic uplift 463
Pb–Zn sulphide minerals 75
Peak Au mine, Cobar 509
Permian, Nowra Sandstone 191
Pilbara, Archaean volcanism (Geological Note) 175
planktonic foraminifera 455
plate boundaries, Gazelle Peninsula 561
playa lake 417
Pleistocene stratigraphy, Boco Plain 581
Point Hibbs, lamprophyre dyke suites 47
porphyroblast 91
Prince Charles Mountains 311
Proterozoic stratigraphy, Savory Basin 533
pyroclastic rock, Campwyn Volcanics 287

Q

Quarternary foraminiferal biostratigraphy 455

R

radiocarbon dating (Geological Note) 179
Ranger uranium mine, rehabilitated landforms 505
'Red Rock Alteration' (Geological Note) 381
regolith 229
rehabilitated landform 505
rifting environment, Wonominta Block 331
Rocklands Rhyolite, and Grampians Group (Geological Note) 621
Rocksberg Greenstone, structural development 115
Rockvale
geochemistry 365
geochronology 365

S

salt lake 37, 417
salt seepage 497
saprolitic supergene environments 181
Savory Basin, stratigraphy 533
seagrass deposits 241
sedimentary
facies 353
record, Fitzroy and Margaret Rivers 273
sedimentology, Lake Lefroy 417
seismic
intensity 483
reflection profiling, Cobar Basin 341
risk 483
sequence stratigraphy 445
sideritic ironstone 255
siliceous rock surface accretions (Geological Note) 179
siliciclastic
rocks 27
sediments, continental shelf 241
Silurian stratigraphy, western Victoria (Geological Note) 621
silver transport 181
slackwater deposits 273
South Australian earthquakes 483
South Palmer River region, granite emplacement 91
southern Australia, upwelling 593
southern New England Orogen 365
palaeomagnetism 547
Spencer Gulf, Holocene sediments 353
spinel to garnet lherzolite transition (Corrigendum) 523
spinel to garnet lherzolite transition 205
spongolite 55
Sr isotopes 37
Sr–Nd isotopes 331
stable isotopes 255
Stanage Bay, tecto Tasmania, Pleistocene stratigraphy 581nics 301
Stanage Fault Zone, New England Fold Belt 571
stratigraphic correlation, Savory Basin 533
stratigraphy, Stanage Bay region 301
stratigraphy
Boco Plain 581
Grampians Group (Geological Note) 621
Rocklands Rhyolite (Geological Note) 621
stromatolites, Savory Basin 533
strontianite, Hunter Valley (Geological Note) 617
strontium 37
isotope ratio (Geological Note) 281
surficial sediments, Kambalda region 229
syndeformational mineralization 509
synsedimentary sill (Reply to Discussion, Discussion) 391, 392, 393

T

Tamar Fracture System (Geological Note) 73
Tasman Basin 395

Tasmania
fault history (Reply to Discussion, Discussion) 169
lamprophyre dyke suites (Corrigendum) 285
lamprophyre dyke suites 47
Pleistocene stratigraphy 581
Tamar Fracture System (Geological Note) 73
tectonic rotation, Hastings Terrane 547
tectonics 301
Glenelg River Complex 141
mid-Proterozoic rocks, east Antarctica 311
New England Fold Belt 571
tectonism, Huon Peninsula 463
temperate and tropical regions, tidal deposits 241
Tennant Creek
Block, 40Ar–39Ar dating 609
porphyry (Reply to Discussion, Discussion) 391, 392, 393
tephra-loess-palaeosol sequence 19
tephrochronology 19
thermo-barometry 205
thermodynamic modelling 181
thrust faults, New England Fold Belt 571
thrust faulting 47
thrusting, Precambrian basement (Reply to Discussion, Discussion) 171
tidal currents 241
turbidite, Lachlan Fold Belt (Geological Note) 383

U

U–Pb determination 509
upwelling, southern Australia 593
uranium, exploration strategy 1

V

vertical component seismograms 221
volcaniclastic facies, Campwyn Volcanics 287
volcanism, New England Fold Belt 287

W

weathering, Kambalda region 229
Whim Creek Belt (Geological Note) 175
Wide Bay Fault system, structure 561
Windimurra layered gabbroid complex (Geological Note) 281
witherite, Hunter Valley (Geological Note) 617
Wittingham Coal Measures, Hunter Valley (Geological Note) 617
Witwatersrand Basin deposition 131
Wombat Plateau 455
Wonominta Block 331
correlation with Broken Hill Block 605

X

xenoliths 205

Y

Yarrol terrane, Stanage Bay 301
Yeelirrie, mineral exploration 1
Yilgarn Craton 229
